SUMMARY

Full Stack .NET Developer with 2 years 11 months of professional experience at Wings Infonet Pvt Ltd (completing 3 years by July 2026), building fintech, web, desktop, API-driven, and mobile application workflows. Hands-on experience in C#, ASP.NET Web API, ASP.NET MVC/MVC Core, ADO.NET, SQL Server, WinForms, Angular UI integration with C# backend APIs, REST/SOAP APIs, IIS deployment/hosting, mobile app API support, production support, and client browser/server issue resolution.

SKILLS

LANGUAGES	C# • SQL • HTML • CSS
BACKEND & FRAMEWORKS	ASP.NET Web API • ASP.NET MVC • MVC Core • ADO.NET • WinForms • DevExpress WinForms
DATABASE	SQL Server 2019 • Stored Procedures • Query Optimization
API & INTEGRATIONS	RESTful APIs • SOAP APIs • Axis Bank APIs • NPCI/NBBL • TATA Telecom Sandbox
FRONTEND & MOBILE	Angular UI Integration • Angular to C# API Flow • Flutter Basics • Mobile App Support
DEPLOYMENT & TOOLS	IIS Hosting • IIS Features • Server Deployment • Visual Studio 2019/2022 • API Testing • Debugging • Production Support

EXPERIENCE

Wings Infonet Pvt Ltd

07/2023 - Present | 2 yrs 11 mos

Software Engineer / Full Stack .NET Developer

Hyderabad, India

- ▶ Designed, developed, tested, deployed, and supported .NET-based web, desktop, API, and mobile application workflows aligned with client requirements.
- ▶ Developed C# backend APIs consumed by Angular UI screens, including request/response handling, UI data binding support, validations, and API-level debugging.
- ▶ Built Axis Bank API Integration Portal Payments module using C#, WinForms, MVC, RESTful APIs, and SQL Server for secure transaction processing and verification.
- ▶ Implemented Bharat Connect for Business (NPCI/NBBL) workflows for end-to-end B2B payment transactions and business process automation.
- ▶ Supported mobile applications by debugging API connectivity, backend response issues, payload errors, and app-related client issues.
- ▶ Handled IIS deployment and hosting activities including application pools, IIS features, bindings, publish folders, permissions, and deployment verification.
- ▶ Resolved client production issues involving browser compatibility, server connectivity, application access errors, configuration issues, and runtime failures.
- ▶ Maintained existing applications through bug fixing, enhancements, performance improvements, release support, and cross-functional coordination.

PROJECTS

Axis Bank API Integration Portal Payments

Technologies: C#, WinForms, MVC, ASP.NET Web API, SQL Server, REST APIs, IIS

Designed and implemented secure portal payment workflows integrated with Axis Bank APIs. Built credential management, login, transaction verification, error handling, and secure communication flows. Connected Angular/UI screens with C# backend APIs, deployed builds on IIS, tested 50+ payment scenarios, and improved API reliability by approximately 40%.

Bharat Connect for Business (NPCI/NBBL)

Technologies: C#, WinForms, RESTful APIs, SQL Server, IIS Deployment
Developed B2B transaction workflows for Bharat Connect/NPCI-NBBL payment operations, enabling end-to-end payment processing between business users. Delivered 15+ enhancements, optimized processing latency by approximately 25%, and supported production rollouts with deployment and issue-resolution activities.

Angular UI, Mobile App & Client Production Support

Technologies: ASP.NET Web API, Angular UI Integration, SQL Server, IIS, Browser/Server Troubleshooting
Supported Angular UI and mobile application workflows by debugging API connectivity, backend responses, request payloads, validation failures, browser issues, server connection errors, configuration problems, and client-system runtime errors. Worked directly on client environments to identify root causes and restore application functionality.

TATA Telecom Web API Sandbox & Messaging Workflows

Technologies: REST APIs, API Sandbox, Dynamic Message Templates
Worked on API sandbox integration and testing for telecom workflows. Created dynamic API-driven message templates for user communication and supported integration readiness through testing, debugging, and workflow validation.

STRENGTHS

Angular + C# API Integration Connected UI workflows with backend APIs and debugged request/response flows	IIS Deployment & Hosting Application pools, bindings, publish folders, and server deployment checks
Client Issue Resolution Browser issues, server connectivity, configuration and runtime fixes	Payment API Integration Axis Bank, NPCI/NBBL, transaction validation, secure payment flows

CERTIFICATION

- .NET Full Stack Development Certification - Naresh IT Technologies (2023)

EDUCATION

Bachelor of Science (B.Sc.)	Viswa Bharathi Degree College, Jaggyayapet, AP - GPA: 9.0	2019 - 2022
Intermediate	Chaitanya Junior College, Nandigama, AP - CGPA: 9.12	2018 - 2019
SSC	KVR ZP High School, Penuganchiprolu, AP - CGPA: 7.5	2016 - 2017
